WILLIAM ROBERT PLUMLEE  
 INFORMATION CONCERNING

---

On July 26, 1976, two Special Agents of the Phoenix Division contacted Plumlee at his place of residence, 9411 North 16th Place, Phoenix, telephone number 944-0965. Plumlee advised that he had been a contract pilot for the Central Intelligence Agency (CIA) and had been involved in CIA activities from approximately 1957 through 1968. He stated that he had been subpoenaed in 1975 before two Congressional investigating committees and had testified to his activities, noting that the concentration of the inquiry was during the time period 1963 to 1968. He stated that there were some leaks from the committee concerning his testimony and for the past two years he has been "underground" living as quietly as possible. However, he said that he has done some contract flying for private persons in Arizona and in the past had flown prospective customers into Arizona for Ned Warren. He also stated that his fiancée is the daughter of Nick Marchese and through Marchese and other contacts, he had associated with persons currently under investigation for the death of investigative reporter Don Bolles. He advised that he had been in contact with Paul Dean, a writer for the "Arizona Republic" concerning this matter.

He stated that his reason for contacting the FBI was that he desired to know if the FBI could determine if he was to be subpoenaed again and what subject the subpoena concerned. He advised that persons from the office of Senator James Buckley were flying to Phoenix on July 26, 1976, and desired to interview him on July 26-27, 1976. He stated that he was concerned that these individuals might have a subpoena for him and after previous leaks of his testimony, he feared for his own safety should it become known that he was again testifying. In addition to the above, he advised that he had done some work for the FBI in Denver, as a pilot, concerning the American Indian Movement (AIM). He also stated that in 1963 he had flown Fidel Castro's girl friend from New York to Tampa, Florida, prior to her allegedly preparing to set up Castro for an assassination. He stated that he flew a P-51 in the Bay of Pigs and that he also made trips into Cuba to fly persons back to the States. He said that all of the above information had been leaked and that he had been contacted by former FBI Agent/writer William Turner and had been interviewed by Turner.
