From the letter:

".....I'm sure you do not remember me, but I jump from your aircraft more than once near the "Rockpile". I remember once when a RPG went through both doors on the helicopter we were in and exploded on a nearby hillside. You and Dan were up front and we all were on RECON coming back from Loas, crossing the line... does this ring any bells of who I am?.....Shortly after that you spotted movement on a hillside not far from where the RPG hit.....Low on fuel, "bingo" light glowing steady, you turned and flew to that spot.....SGT Billy G. Wilson 1st recon MASOG was stranded and lost in the bush. Hostiles were all around him and a small fire fight was going on about two clicks from his position. Wilson was shot up perty bad and waving frantically at us as we past overhead.....I did not know who you were until I saw a few pictures on the net.....I was one of the persons that repelled down and latched him to the line.....you lifted him out and I stayed down in the bush as agreeded because of the fuel situation.....I was told you came back, but it was to late. I was captured and spent two years in a PCAMP. Billy lived and is alive and well in Washington State, has two little girls that are now grown women. He lost his leg, but you saved his life.....I've never wanted you to feel bad about leaving me, it was my choice.....I went to the Wall in Washington D.C. a few years ago.... I was told your real name by a 5th Cal Sargent while in NAM...., and I saw Plumlee on the Wall..., I cried thinking it was you that was lost over there.... I tried to find your relatives to tell them this story, but had no luck.....I was ask my a government official "Why I wanted to find your family.... I got your address from a Senator investigator and was told you were alive and well and you had testified in Washington in 1990. I thought I saw you on T.V. a few years back. CBS gave me this address..... I hope I do not offend you.... some of us have put all that behind us....."
